SMALL CITIES HIGHWAY GRANT SPECIAL CITY ALLOTMENT

The City of Elgin proposes to repair a portion of Birch Street from 12th to Highway 82 (8th) and those portions of 11th, 12th, and 15th that are between Birch Street and Highway 204 (Division). This project ties into the Grant project completed last Summer on Birch street. The traffic on these streets is heavy due to local school traffic that flows between the grade school and the high school, and the traffic off of highways 204 and 82 to the high school. The proposed project, and the previous project on Birch and 14th, is shown on the enclosed map.

The project is estimated to cost \$33,000. The streets will be patched, approximately 800 feet of drain trench constructed, the shoulders and parking shaped and graveled, and the streets surfaced with 3 courses of oil mat, "chip seal". The City is requesting a grant of \$25,000 to augment the City's share of \$8,000.
